Survivors Give Thanks

Title: Survivors Give Thanks

As a lung cancer survivor, I am thankful for every moment, and every day, and every year, and for all those who helped me get here.

I'm thankful for the doctors and nurses that cared for me.

I'm thankful for the guidance and leadership of survivors and supporters who helped me on my journey.

I'm thankful for the support of loved ones and experts who stood by me, and let me know I wasn't alone.

I'm so thankful for the researchers who discover treatments and work for the cure.

I'm thankful for the groups that give a voice to survivors everywhere.

I am thankful for the generosity of others.

I am thankful for the insight and information available from trustworthy sources, Web sites, and groups.

I am thankful for people who care enough to help.

I am thankful for viewers like you, who help build awareness and support for the cause.

Sanofi-aventis is thankful for the help, hope, and support offered by the advocacy partners of *Kaleidoscope*. Sanofi-aventis salutes the work of these groups and the survivors they serve each day. Sanofi-aventis. Because health matters, and so do you.
